For the year ended 30 April 2007, the Group recorded a net loss for the year of HK\$15.1 million (2006: HK\$57.9 million). BUSINESS REVIEW

Consumer Finance Business

After the change in control of the Company, the Company made its first move into the consumer finance sector by acquiring a moneylending business in Beijing in April 2006. The Company provides secured loans, mainly to individuals and SME business owners. The revenue of the moneylending business comprises finance charges at a monthly effective rate of 0.5% based on the 6-month bank lending rate that is announced by the People's Bank of China, with a mark up, plus service charges of up to 4.2% per month, as well as net proceeds of merchandise held for sale. During this post-acquisition transition year when the Company focused efforts on management and organisation improvements, the turnover of the moneylending business for the year ended 30 April 2007 was HK\$1,082,000 (period from 14 April 2006 to 30 April 2006: HK\$146,000). The overall result of the consumer finance business (including other same segment subsidiaries not directly related to the China consumer finance business) recorded a profit of approximately HK\$23,000 (2006: loss of HK\$554,000).

After having acquired the moneylending business for a year and investing time and effort into restructuring the management structure, approval systems, and loan monitoring systems, the Group is familiar with the unique operating environment for the consumer finance business in the PRC. The Group will identify opportunities to expand its consumer finance business in the PRC through acquisitions or establishment of new moneylending branches in other PRC cities.

Restaurant Business

Our restaurant business continues to face a challenging market environment. The decrease in unemployment rate and the increase in consumer spending power are favorable to the Hong Kong retail market. However, increases in rental expenses, staff costs, material costs and fuel costs for our restaurant business have resulted in challenges in our operating environment. Turnover for the restaurant operation for the year ended 30 April 2007 was approximately HK\$217 million (2006: HK\$217 million) and a loss of HK\$14.0 million (2006: HK\$20.1 million) was recorded in ordinary restaurant activities.

NEW ACQUISITION

During this past full transition year following the change of control of the Company, the Group continued to adhere to its mission to focus on business opportunities in the financial services and fast growing consumption related businesses in China. In December 2006, the Group entered into a Subscription, Share Purchase and Shareholders' agreement in relation to Guo Xin China Pay Systems Limited (the "JV Company") for the acquisition of 45% equity interest in the JV Company for an aggregate consideration of up to US\$50 million (approximately HK\$390 million) of which up to US\$24.5 million (approximately HK\$191 million) is an earn-out payment with reference to the China e-Ticket ("CET") business achieving threshold net profit milestone of US\$75 million (approximately HK\$585 million). The JV Company is the 55% shareholder in the CET business, the remaining 45% shareholding interest is owned by 北京國新投資管理有限公司 (SCIO Investment Company Limited), an organization owned by affiliates of the State Council Information Office of the PRC.

CET's rollout implementation timetable targets that within the next 3 years major selected tourist sites in the PRC will have converted their admissions systems into one that deploys CET's contactless smart-cards as their admission/exit ticket, utilizing advanced RFID technology and incorporating attractive multimedia presentation. In the process, CET targets that its smart-card tickets will be a new digital media and advertising platform that focuses on information dissemination and advertising, leveraging on the ability of smart-card tickets to reach large numbers of international tourists and domestic citizens each year.

Substantial research and development work had been carried out in the past few months with the management and operation teams of different tourist sites. A unique system, which will be customised according to the requirements of different sites, has been developed and is in the final testing process. The first site is expected to be launched shortly when the final testing process is completed.

SEASONAL/CYCLICAL FACTORS

The sales volume during festive periods is normally higher than the sales volume in the slack periods of the year for restaurant operation only.

FINANCIAL REVIEW

Liquidity and financial resources

The cash and cash equivalents of the Group as at 30 April 2007 amounted to HK\$88.9 million (2006: HK\$139.5 million). The Group's current ratio as at 30 April 2007 is 4.23 (2006: 2.95). The total equity of the Group amounted to HK\$175.8 million (2006: HK\$153.4 million) as at 30 April 2007.

Gearing

The gearing ratio, as a ratio of bank loans to total equity, was 0.03 as at 30 April 2007(2006: 0.13).

Exchange Rate Exposure

As at 30 April 2007, the Group's cash and cash equivalents amounted to HK\$88.9 million. Since the majority of the Group's transactions, monetary assets and liabilities are denominated in Hong Kong dollars, United Stated dollars and Renminbi, with relatively stable exchange rates of Renminbi to Hong Kong dollars and Hong Kong's linked exchange rate between United States dollar and Hong Kong dollar, the Group has minimal exposure to exchange rate fluctuations.

Treasury policies

The group generally finances its ordinary operations with internally generated resources. The interest rates of most of the borrowings, if applicable, are charged by reference to prevailing market rates.

Contingent liabilities

In December 2005, a legal action was commenced by a former employee of KCCC, a wholly owned subsidiary of the Company, against KCCC for the claim of approximately HK\$1,569,000 for personal injuries, loss and damages suffered during the work in KCCC. In the opinion of the directors, such claim should be adequately covered by the Group' insurance. Hence, no provision has been made in the financial statements.

At 30 April 2007, a number of current employees achieved the required number of years of service to the Group in order to be eligible for long service payments under the Employment Ordinance should their employment be terminated under certain prescribed circumstances. A provision has not been recognised in respect of such possible payments, as it is not considered probable that there will be a material future outflow of resources from the Group in respect thereof. The Group has a contingent liability in respect of possible future payments to employees under the Employment Ordinance with a maximum possible amount of approximately HK\$1,200,000 (2006: HK\$1,300,000) at 30 April 2007.

At 30 April 2006 and 2007, the Company provided corporate guarantees to landlords in respect of the operating lease payments of its subsidiaries; and banks in respect of the banking facilities granted to its subsidiaries.

FUTURE PROSPECTS

Looking forward, in addition to the present consumer finance business and smart-card financial services business, the Group is continuing to pursue leading-edge initiatives in other areas of financial services and other highly-regulated consumption sectors in China, while optimally sustaining growth from a medium to long-term perspective and maximizing shareholder value.

EMPLOYMENT AND REMUNERATION POLICY

As at 30 April 2007, the Group had 630 (2006: 640) employees in Hong Kong and the PRC. The Group has not experienced any significant problems with its employees or disruptions due to labour disputes nor has it experienced difficulties in the recruitment and retention of experienced staff. The Group remunerates its employees based on industry practices. Its staff benefits, welfare, share options and statutory contributions, if any, are made in accordance with individual performance and prevailing labour laws of its operating entities.
